EXPERIENCE

Deloitte USI

July 2024 - Present

Junior Solution Analyst - Cyber Identity

Hyderabad, India

Responsible for end-to-end management of the identity lifecycle, including Joiner, Mover, and Leaver (JML) processes. Involved in access provisioning, application onboarding, and implementing Role-Based Access Control (RBAC) to enhance security and compliance. Hands-on experience in SailPoint IdentityNow development, issue analysis, and resolution to support seamless identity governance and administration.

Freelance Web Developer

August 2023 - July 2024

- Delivered diverse freelance projects using **HTML, CSS, Bootstrap, Tailwind, ReactJS, React Native, Flutter, PHP, and MySQL**, demonstrating full-stack expertise.
- Developed a telecommunication website with **admin controls** and live tracking, a coaching center site with tutor management and **PDF generation**, and a responsive **WordPress landing page** for an engineering firm.

Front-End Web Developer

December 2022 - April 2023

- Worked as a Frontend Intern at Yunay Innovation, gaining hands-on experience in website development, design, and maintenance.
- Developed and contributed to projects using JavaScript, including a billing website, enhancing practical frontend skills.

PROJECTS

Mockmate | Next.js, React.js, TailwindCSS, Framer Motion, Google Gemini

[Website](#)

- Built an **AI-powered** real-time interview interface with natural speech input, response analysis via **Google Gemini**, and dynamic feedback.
- Designed a **responsive**, animated UI using TailwindCSS and Framer Motion, with **real-time performance** metrics and insights.

Daily Journal | React Native, Async Storage

[GitHub](#)

- Developed an app to record updates, plans, and personal reflections with a clean, intuitive UI & **CRUD functionality also with filter option**.
- Used **AsyncStorage** for local data persistence, ensuring offline access and smooth user experience.

Tutorial Website | PHP, MySQL, HTML, Bootstrap CSS, JavaScript

[Website](#)

- Built a tutorial website for a coaching center featuring a **responsive landing page** and enquiry form for students/parents. Enabled **admin panel** to manage tutor applications & upload subject notes for student access.
- Integrated **PDF generation** for monthly fee receipts and Q&A documents to streamline academic operations.

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript, PHP
- **Frontend Technologies:** HTML, CSS, Bootstrap CSS, Tailwind CSS, React.js, Next.js, React Native, Flutter
- **Backend & Databases:** MySQL, Firebase

EDUCATION

Ravenshaw University

Bachelor in computer science

August 2021 - June 2024

CGPA: 8.83
